Task	Week of 10/10	Week of 10/17	Week of 10/24	Week of 10/31	Week of 11/7	Week of 11/14	Week of 11/21	Week of 11/28	Week of 12/5	Week of 12/12 (Finals)	Spring Semester
Investigate Crazyflie firmware architecture	Deliver										
Modify Crazyflie firmware to be as modular as possible		Deliver									
Add Wifi capabilities to the Crazyflie				Deliver							
Test different control algorithms on Crazyflie						Deliver					
Develop ground station software to communicate & control Crazyflie				Deliver							
Develop test stand hardware	Deliver										
Develop test stand firmware/software		Deliver									
Write lab instructions and documentation								Deliver			
Stretch goal: Convert control algorithm from MatLab code to C code that works with our interface										Deliver
